Thank you for the update. As the way the govt has seen fit to drive up cost rates tariffs and have a healthcare property tax lean on me enclosed is proof of record from this hud development. Congress the stock market and new presidential tariffs from the rule of law I have been placed under as of March 2016.... Of regulations to the 7th 8th and 14 to the 13th amendment it is illegal of involuntary servitude to be forced as an employee of duke energy healthmarket and over charged over the climate as a security issue and used over regulatory Fed and tariff agendas it is illegal to lock someone up over taxa from housing and not correct the issue. Putting me to death is not a correction it is a violation especially after I cut off breakers and conserve on any energy, this is not the only bill or utility within question of reform
